<p>With great joy Gojuu announces its new Partnership with 1543 Wagyu. 1543 Wagyu is a brand created by four 100% Wa Gyu local cattle raisers, who adopted in their name the year the Portuguese first arrived in Japan. The breed was introduced in Portugal in 2015, requiring a very particular feeding and handling to reach the perfect marbling of the meat. This perfect marbling is our common joint goal, but until it is ultimately reached - and it will be - a high quality meat can already be enjoyed at Gojuu.</p>
